

United Way of Southeast Louisiana's 2011 ANNUAL REPORT

IF UNITED WAY DID NOT EXIST

37.8 million pounds of food would not have fed the hungry

1.4 million hours of volunteer recovery work would not have helped our region

81,314 people would not have received crucial mental health counseling

78,460 youth would not have attended out of school programs

10,786 children would not have been in quality child care

2,541 families' homes would not have been repaired, rebuilt or constructed

People would not have been helped **1.96 million** times

BUT UNITED WAY DOES EXIST

We exist so children will go to school ready to learn; so youth will stay out of trouble and graduate; so adults will find steady employment.

We exist so people will have sound mental and physical health, and can get counseling and treatment when they need it.

We exist so our residents will have safe and affordable housing, and assistance during times of crisis.

We exist so our region will thrive.

Your support did make a difference – it changed lives.

MESSAGE FROM THE PRESIDENT & CEO

Dear Friends,

United Way of Southeast Louisiana [formerly United Way for the Greater New Orleans Area] continues to lead the way in mobilizing partners toward creating sustainable solutions to our region’s most pressing problems. In this report, we provide a snapshot of the work undertaken during the 2011 Fiscal Year. This year we changed our name to better reflect our seven parish service area, but our mission “To increase the organized capacity of people to be independent and self-sufficient” stays the same.

Throughout our seven parish region of Jefferson, Orleans, Plaquemines, St. Bernard, St. Tammany, Tangipahoa and Washington, we created measurable improvement in the lives of our area’s most vulnerable residents. Together with our partners and thanks to generous contributions by donors, our innovative, results-driven initiatives are tackling the underlying causes of complex problems across our region.

United Way believes that everyone has a role in building a better future for all. LIVE UNITED is our invitation to join us in shaping community-wide change.

Thanks to your exceptional generosity, thousands have benefited from United Way-supported programs. We continued to bring nutritious food to low-income neighborhoods, keep at-risk youth engaged in school, help individuals and families achieve financial stability, and ensure the viability of human service nonprofit organizations.

These are just a few of the many ways your support of United Way has assisted our families and neighbors. While we continue to make significant progress, we recognize that there is much work left to be done, and we cannot do it alone.

On behalf of all of us at United Way, thank you for your continued commitment and support.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary Ostroske". The signature is fluid and cursive, written over a light gray dotted line.

Gary Ostroske, President & CEO
United Way of Southeast Louisiana

LIVE UNITED

Hanes
HEAVYWEIGHT

OUR MISSION

“To increase the organized capacity of people to be independent and self-sufficient.”

OUR GOALS

Our United Way is addressing the region’s most critical needs with a goal of maximum impact. Our work is organized around three impact (program) areas:

EDUCATION

Success for Children & Families... programs and community partners working collectively to help children and youth develop to their fullest potential, support healthy, nurturing family relationships, and improve access to quality, affordable child care;

HEALTH

Health & Independence for All... programs and community partners working to assure that community residents have access to timely and effective physical and behavioral care, and that seniors and those with disabilities have the best possible quality of life;

SAFETY NET

Financial Stability for Hardworking People & Those in Crisis... programs and community partners working together to assist people in times of need or emergency, empower people to increase household income, build savings to weather crises, and help families gain, sustain, and protect their assets, such as a home.

“If United Way didn’t exist,
I would probably be in jail. Or dead.”

Robert Fezekas is busy doing what most college students do: studying and writing papers. But just four years ago, Robert was a drop out, addicted to drugs – until he found a substance abuse program at Odyssey House, funded by United Way. Nearly two years sober, Robert is now a Dean’s List student with a double major in psychology and substance abuse counseling. He helps others by working at Odyssey House as recovery support staff.

Robert is not alone. According to the National Institute on Alcohol Abuse and Alcoholism, 1 in 10 people has an addiction disorder. “This is a subject that too often stays behind closed doors,” says Robert, “but I know that it will affect everyone at some point, if it hasn’t already.”

“If United Way didn’t exist,
we wouldn’t have a place to call home.”

The Jones family lost their home to Hurricane Katrina. Toni, Timothy and their three children returned to New Orleans in 2008, living with friends and family while trying to rebuild. Victims of contractor fraud and theft, the Jones family thought they would never get back in their house. United Way's NO Place Like Home rebuilding initiative, in partnership with Phoenix of New Orleans (PNOLA), helped them finish the job.

Thousands of hardworking families and individuals, just like the Jones family, are still in need of permanent housing. "Our new home has given our family much needed stability and peace of mind," says Timothy. "We have been truly blessed."

WE UNITED™

EDUCATION

Quality Start is a voluntary program for licensed child care centers, designed to recognize, support, and increase the quality of child care throughout Louisiana. Participating centers can earn up to five stars. Success By 6 [SB6] staff assistance Royal Castle Child Development Center became a 5-star center. Of the remaining sixteen United Way funded child care centers, six centers advanced to 4-stars, one center to 3-stars and the six remaining centers advanced to 2-stars. Quality Start also offers training and incentives to child care providers to help increase their rating. Important new quarterly bonuses and tax credits are also available to parents who choose a Quality Start center.

SB6 staff and consultants met weekly to help implement the action plan for Gilda's Academy's [a 4-star United Way child care center] move towards NAEYC Accreditation. Teachers received two six-hour trainings; drafted and refined accreditation time line, modified environment and organized physical space to meet standards, curriculum and theme related lesson plans, creating classroom and administrative portfolios to link standards and criteria with daily classroom routines.

Fifteen United Way agency child care teachers completed the Fast Track Child Development Associate [CDA] class at Delgado Community College. Three of our agency centers hosted CDA classes, facilitated by Agenda for Children instructors, twice a week on their sites to accommodate their entire staff. A total of 20 teachers and administrators participated in the courses which give teachers the experience and knowledge to provide a quality, and developmentally appropriate education for early learners.

Seamless Transitions, which bridges the gap of knowledge between pre-K and kindergarten teachers, kicked off its third year by hosting a parent involvement workshop, a vital component of this year's pilot project. Parents received training and materials to enhance their knowledge around the importance of quality early care and their role in fostering their children's success. Thanks to Carol Wise and the Templeman Foundation for their generous contribution of \$10,000 to continue our good work, partnerships with two new schools and two new child care centers were established.

As a result of SB6 and United Way's Women's Leadership Council's advocacy, the Nurse Family Partnership [NFP] budget was passed by the Louisiana Legislature with funding restored. The NFP is an evidence-based home visiting program that improves the health, well-being, and self-sufficiency of low-income, first time parents and their children. Nurses conduct intensive weekly to bi-weekly home visits from early pregnancy to the child's second birthday. NFP improves child health and development by helping parents provide competent care for their babies and improves families' economic self-sufficiency by helping parents continue their education, find work, and plan for the future.

HEALTH

As we move forward in addressing issues that fall within the Health Impact Area, we revived and revamped the three year funding process. Beginning with 2012-2013 funding, the Health Impact Area will be the first to go through this process where program applicants receive a grant amount for one year, renewable for two additional years based on program performance and available dollars.

The suicide rate in St. Tammany Parish has risen 30% from 2005 to 2010. In addition, Orders of Protective Custody, Coroner's Emergency Certificates and Physician's Emergency Certificates have risen over 300% in that same time period. In 2010, St. Tammany had the highest suicide rate in our seven parish area. In an unprecedented move, St. Tammany Parish Government, in partnership with United Way, 911, 211 and over 20 other social services agencies, created the St. Tammany Suicide Prevention Program that addresses immediate crisis response efforts, psychiatric assistance and on-going counseling for individuals (with their families) who either attempted or committed suicide.

Organized a forum where all five managed-care companies under Bayou Health addressed the Medicaid population and answered questions they had prior to the sign up date in January 2012.

United Way's Double Home Advantage program aims to address the rebuilding efforts of multi-family unit owners in New Orleans. Unlike most housing markets in the U.S., which consist of single-family homes and mid to large scale condominium and rental complexes, New Orleans housing is largely comprised of doubles, triplexes and fourplexes. Disaster-affected owners of small multi-family units have been last in line for help from government and private funders, as rebuilding efforts have been overwhelmingly focused on large scale developments and owner-occupied single-family homes.

By leveraging funds received from the Greater New Orleans Foundation to start the program, United Way secured a grant from Enterprise Community Partners to perform energy audits and purchase green building materials. The program also received a \$5,017 donation from United Way of Miami-Dade for construction materials. By the end of 2011, 74% of construction on 22 units had been completed (Phase I-1st 12 units were 100% completed, Phase II-8 units were 95% completed, Phase III-2 units were 28% completed). Nine of eleven landlords involved had successfully completed their landlord training.

The Emergency Food & Shelter Program (EFSP) distributes federal funds for food pantries and helps people with emergency assistance for rent, mortgage, and utility payments. In 2011, United Way received \$ 134,854.00 that funded 17 Emergency Food and Shelter Programs in Orleans and Plaquemines parishes.

The Individual Development Account (IDA) Project is designed to help hard-working, low-income individuals and families save money. Participants enrolled in this matched savings program may ultimately purchase an asset, such as a home or a vehicle, or start up or expand an existing child care business.

Participants make regular deposits to a special "Individual Development Account" or IDA, held at a local financial institution. An IDA is not a "giveaway." Participants receive matches by saving their own hard-earned dollars and learning about financial fitness and asset purchases. When the savings goal is reached, United Way sends a check for the matched dollars to the closing agency, dealership or vendor.

As of December 31, 2011, the closeout of the IDA Project, United Way assisted 137 individuals and/or families with their asset purchases; 106 for homeownership, 28 for vehicle purchases, and 3 for child care business start-up or expansion. The return on the \$1,043,272 investment was \$11,078,507.

The Earned Income Tax Credit (EITC) Initiative works with the IRS, Volunteer Income Tax Assistance (VITA) sites, and local providers of service to help low-income households secure tax benefits and free income tax assistance.

United Way and partners helped put over \$5.3 million back into the community through the EITC program during the 2011 tax season. At a time when many families are struggling to make ends meet, the EITC dollars help hard-working people keep food on their table and a roof over their heads.

CORPORATE PARTNERS

Those who give to United Way of Southeast Louisiana are an integral part of efforts to change the lives of thousands for the better each year. Each year, donor dollars are invested back into the community, achieving maximum impact through United Way initiatives, collaboratives and funded partner agency programs.

Your gift to our **Maximum Impact Fund** produces the best return on your charitable investment. Your dollars stay local, supporting 137 programs. Each program must pass a rigorous annual review by qualified volunteers. Only programs with proven success earn our trust.

Combined Federal Campaign for Greater New Orleans

United Way for the Greater New Orleans Area (UWGNOA) does not charge membership dues and/or service charges to charitable organizations that participate as members in the Combined Federal Campaign for Greater New Orleans (CFGNO). UWGNOA administrative costs are recovered from donations. There is a 10% administrative fee, with a cap of \$250.00 per donor. CFGNO administrative costs are recovered from donations. The CFGNO's Federal Executive Board approves the administrative costs and these costs are deducted from the charitable organizations designations due to them, based on their proportionate share of the overall campaign dollars raised.

LEADERSHIP

The United Way **Tocqueville Society** was founded over 20 years ago to deepen the understanding, commitment and support of United Way's most generous and community-minded investors. This philanthropic group was named by United Way of America for the Frenchman Alexis Charles Henri Maurice Clérel de Tocqueville, who critiqued our country's evolving political and social structure in Democracy in America (1835 and 1840) and declared himself most impressed with Americans' generosity.

Membership in the Tocqueville Society is open to those who contribute at least \$10,000 annually to United Way. National society membership is granted to those who contribute \$100,000 to United Way.

Yearly, the Society awards its highest honor – the Alexis de Tocqueville Award – to an outstanding member of the community who exemplifies the ideals of generosity and service. The 2011 Tocqueville Award recipients were **Henry and Karen Coaxum**. The Coaxums, a husband-wife team in every endeavor, make a double impact in New Orleans for both economic development and community improvement. Coaxum Enterprises owns seven McDonald's restaurants. Their state-of-the-art Coaxum Enterprises Training and Resource Center trains hundreds of employees each year. The duo serve on numerous boards for economic development, historic preservation, the arts and health and human services.

The Tocqueville Society also bestowed Live United honors to Entergy Corporation, William "Billy" Nungesser and Barbara Turner Windhorst.

The **Women's Leadership Council [WLC]** was founded by a group of corporate, civic, and community leaders who work together to improve the quality of life for women and children in the New Orleans region through leadership, philanthropy, and advocacy. The WLC expands the ability of women to be a strong voice and achieve results in the nonprofit arena by pooling their time, talent, and financial resources toward specific goals. Working together, women can shine light on critical social services and public policy issues and bring to the forefront the positive impact that women can have on a community.

Membership in the WLC entails a \$1,000 or more donation to United Way. Women age 35 or younger can join WINGs (Women in the Next Generation) with a donation of \$500.

Over the last decade, this diverse group of women has:

- Raised over \$1,500,000 to benefit causes focused on women and families.
- Helped raise the quality of our childcare centers through the Star Rating System for which they advocated.
- Supported the efforts of Nurse Family Partnership – an organization focused on improving the lives of women and their children through intervention during pregnancy and during the first two years of the child's life.
- Partnered with the Cancer Association of Greater New Orleans and the Louisiana Breast Cancer Task Force to encourage compliance by Louisiana physicians with the law that requires them to inform every patient diagnosed with breast cancer of her options.
